

STAGE 4 INDUSTRIAL TECHNOLOGY ELECTIVE - METAL INDUSTRY

Hose Reel Holder | 25-period teaching program

Website-complete teacher review copy | Industrial Technology 7-10 Syllabus (2025)

Course	Stage 4 Industrial Technology elective - Metal industry	Delivery	2027 10 weeks
Timetable	25 x 60-minute periods	Pattern	5 periods per fortnight
Lesson balance	5 theory 5 project/folio 15 practical	Syllabus	2025 syllabus - approved early use
Status	Local teacher review only	Project	Produce the approved mild-steel hose reel holder project

Website coverage: 15 named theory sections, 7 quiz/check sets (10 questions) and 5 scaffolded responses are scheduled. Practical lessons remain the majority. Stage 5 outcomes are adjusted to suit Stage 4, as permitted by the syllabus course advice.

Industrial Technology outcomes

Outcome	Official wording
INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts
INT5-COM-01	communicates ideas and processes in industrial technology contexts
INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment
INT5-DES-01	selects and applies design, project management and technical skills in project production
INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects
INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-INP-01	analyses and applies a range of industrial processes in production contexts
INT5-PRO-01	demonstrates practical skills in the production of projects
INT5-IND-01	investigates and explains a range of industry careers, enterprise opportunities and practices

Teacher to confirm before use

When	Confirm	Owner
Before Period 1	Assessment dates, submission method, class supports and adjustments	Teacher / faculty
Before practical work	Current plan revision, permitted variations, induction, SOPs, tools, PPE, supervision and risk controls	Teacher / faculty
Before finishing	Approved finish, SDS/product instructions, area, drying and storage arrangements	Teacher / faculty

Teaching program | Periods 1-10

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Module 1: website	Read and discuss: Meet the project: function, users and constraints; Meet the project: function, users and constraints knowledge check (2 questions); written response. Save or show the completed website evidence.	Design factors and project specifications	Website evidence checked INT5-DES-01, INT5-COM-01
2	Project/folio	Module 1: folio	Read and complete: Workshop entry and machine permission. Update the folio with the current decision, process evidence and next step.	Risk management and risk-reduction procedures	Folio + website evidence INT5-SAF-01, INT5-INP-01
3	Practical	Module 1: site + practical	First 20 min: Learn from the unsafe scenario. Then complete the teacher-approved project stage; check the plan, setup and one quality point.	Risk management and risk-reduction procedures	Website + practical check INT5-SAF-01
4	Practical	Module 1: production	Continue the approved project stage; follow the current plan and SOP; check accuracy, fit or surface quality.	Risk management and risk-reduction procedures	Practical quality check INT5-SAF-01
5	Practical	Module 1: evidence	Complete the current stage; photograph a checkpoint; record the problem and response if needed; clean down.	Risk management and risk-reduction procedures	Photo + quality note INT5-SAF-01
6	Site/theory	Module 2: website	Read and discuss: From drawing to marked metal: planning the work; From drawing to marked metal: planning the work knowledge check (2 questions); written response. Save or show the completed website evidence.	Accurately measure and mark out metal	Website evidence checked INT5-USE-01, INT5-PRO-01
7	Project/folio	Module 2: folio	Read and complete: Use the design process deliberately. Update the folio with the current decision, process evidence and next step.	Design factors and project specifications	Folio + website evidence INT5-DES-01, INT5-COM-01
8	Practical	Module 2: site + practical	First 20 min: Marking-out evidence. Then complete the teacher-approved project stage; check the plan, setup and one quality point.	Accurately measure and mark out metal	Website + practical check INT5-USE-01, INT5-PRO-01
9	Practical	Module 2: production	Continue the approved project stage; follow the current plan and SOP; check accuracy, fit or surface quality.	Accurately measure and mark out metal	Practical quality check INT5-USE-01, INT5-PRO-01
10	Practical	Module 2: evidence	Complete the current stage; photograph a checkpoint; record the problem and response if needed; clean down.	Accurately measure and mark out metal	Photo + quality note INT5-USE-01, INT5-PRO-01

Teaching program | Periods 11-20

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site/theory	Module 3: website	Read and discuss: Control the workpiece before the tool; Control the workpiece before the tool knowledge check (2 questions); written response. Save or show the completed website evidence.	Risk management and risk-reduction procedures	Website evidence checked INT5-SAF-01
12	Project/folio	Module 3: folio	Read and complete: Cutting and edge preparation. Update the folio with the current decision, process evidence and next step.	Cut, shape and form sheet metal and metal sections	Folio + website evidence INT5-INP-01, INT5-PRO-01
13	Practical	Module 3: site + practical	First 20 min: Forming with a planned sequence. Then complete the teacher-approved project stage; check the plan, setup and one quality point.	Accurately measure and mark out metal	Website + practical check INT5-USE-01, INT5-PRO-01
14	Practical	Module 3: production	Continue the approved project stage; follow the current plan and SOP; check accuracy, fit or surface quality.	Cut, shape and form sheet metal and metal sections	Practical quality check INT5-INP-01, INT5-PRO-01
15	Practical	Module 3: evidence	Complete the current stage; photograph a checkpoint; record the problem and response if needed; clean down.	Cut, shape and form sheet metal and metal sections	Photo + quality note INT5-INP-01, INT5-PRO-01
16	Site/theory	Module 4: website	Read and discuss: Assembly quality: fit, alignment and finish; Assembly quality: fit, alignment and finish knowledge check (1 question); written response. Save or show the completed website evidence.	Prepare metal surfaces for finishes	Website evidence checked INT5-INP-01, INT5-PRO-01
17	Project/folio	Module 4: folio	Read and complete: Choose and complete the approved joint. Update the folio with the current decision, process evidence and next step.	Metal joining and fabrication techniques	Folio + website evidence INT5-INP-01, INT5-PRO-01
18	Practical	Module 4: site + practical	First 20 min: Prepare for corrosion protection; Prepare for corrosion protection knowledge check (1 question). Then complete the teacher-approved project stage; check the plan, setup and one quality point.	Prepare metal surfaces for finishes	Website + practical check INT5-INP-01, INT5-PRO-01
19	Practical	Module 4: production	Continue the approved project stage; follow the current plan and SOP; check accuracy, fit or surface quality.	Metal joining and fabrication techniques	Practical quality check INT5-INP-01, INT5-PRO-01
20	Practical	Module 4: evidence	Complete the current stage; photograph a checkpoint; record the problem and response if needed; clean down.	Metal joining and fabrication techniques	Photo + quality note INT5-INP-01, INT5-PRO-01

Teaching program | Periods 21-25

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Site/theory	Module 5: website	Read and discuss: Evidence proves the process; Evidence proves the process knowledge check (1 question); written response. Save or show the completed website evidence.	Document, reflect on and evaluate project development	Website evidence checked INT5-COM-01, INT5-DES-01
22	Project/folio	Module 5: folio	Read and complete: Organise the folio. Update the folio with the current decision, process evidence and next step.	Document, reflect on and evaluate project development	Folio + website evidence INT5-COM-01, INT5-DES-01
23	Practical	Module 5: site + practical	First 20 min: Evaluate with evidence; Evaluate with evidence knowledge check (1 question). Then complete the teacher-approved project stage; check the plan, setup and one quality point.	Quality checks for metals and components	Website + practical check INT5-EVL-01, INT5-PRO-01
24	Practical	Module 5: production	Continue the approved project stage; follow the current plan and SOP; check accuracy, fit or surface quality.	Quality checks for metals and components	Practical quality check INT5-EVL-01, INT5-PRO-01
25	Practical	Module 5: evidence	Complete the current stage; photograph a checkpoint; record the problem and response if needed; clean down.	Quality checks for metals and components	Photo + quality note INT5-EVL-01, INT5-PRO-01

Evidence, feedback and practical controls

Check	Look for	Respond
Website	Named theory, checks and responses completed	Revisit feedback and correct missed ideas
Folio	Decisions and process evidence tied to the project	Set one clear next step
Practical	Safe method, accuracy, quality and clean-down	Pause, demonstrate, practise and recheck

Use the current approved plan, local induction, SOPs, PPE, supervision, risk controls and product instructions for every practical lesson.
