

YEAR 8 STAGE 4 ELECTIVE | TEACHER PROGRAM

Hose Reel Holder

Introductory unit contributing to a 100-hour Industrial Technology – Metal elective

Program control	Verified value
Delivery	2027 Year 8 Stage 4
Duration	20 weeks 50 x 60-minute periods 5 periods per fortnight average 2.5 hours per week
Syllabus	Industrial Technology 7–10 Syllabus (2025) Approved early adoption for 2027; mandatory from 2028
Outcome use	Stage 5 outcomes adjusted for Year 8 under INT4-ADJ-01; the adjustment advice is not an outcome code.
Program status	Local source-bound candidate not committed, pushed or deployed
Course boundary	This unit records 50 periods. Additional study is required to complete the 100-hour elective.

Authority and boundaries

[Official syllabus overview](#) | [Official outcomes](#) | Current local practical procedures, issued project documents and formal assessment records remain controlling where applicable.

Teacher to confirm: Current authentic Hose Reel Holder working drawing, dimensions and component specifications.

Assessment and course boundary: No authorised formal assessment notification was supplied; weighting, due date and submission route remain Teacher to confirm. The additional project and collaborative activity needed for the broader 100-hour course remain outside this 50-period unit.

Outcomes mapped in this unit

Outcome	Exact outcome statement
INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts
INT5-COM-01	communicates ideas and processes in industrial technology contexts
INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment
INT5-DES-01	selects and applies design, project management and technical skills in project production
INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects
INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-INP-01	analyses and applies a range of industrial processes in production contexts
INT5-PRO-01	demonstrates practical skills in the production of projects

Teaching and learning sequence

Existing unit content is preserved. Full route, source and evidence cross-references are retained in the alignment manifest.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Meet the project: function, users and constraints	Teach Meet the project: function, users and constraints; students use the existing module check.	S3 — Identify design factors and develop project specifications	Module check feedback, notes or teacher questioning. Outcomes: INT5-SAF-01, INT5-COM-01, INT5-ENV-01.
2	Project/folio	Meet the project: function, users and constraints	Apply Meet the project: function, users and constraints; students save the relevant folio or module response.	S3 — Outline risk-management principles and implement risk-reduction procedures	Saved folio entry or scaffolded module response. Outcomes: INT5-SAF-01, INT5-COM-01, INT5-ENV-01.
3	Site/theory	Workshop entry and machine permission	Teach Workshop entry and machine permission; students use the existing module check.	S3 — Identify design factors and develop project specifications	Module check feedback, notes or teacher questioning. Outcomes: INT5-ENV-01, INT5-DES-01, INT5-USE-01.
4	Project/folio	Learn from the unsafe scenario	Apply Learn from the unsafe scenario; students save the relevant folio or module response.	S3 — Outline risk-management principles and implement risk-reduction procedures	Saved folio entry or scaffolded module response. Outcomes: INT5-USE-01, INT5-SAF-01, INT5-COM-01.
5	Practical	Module 1: confirm the issued plan and workshop readiness	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Identify design factors and develop project specifications	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01.
6	Practical	Module 1: prepare and organise approved materials	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Outline risk-management principles and implement risk-reduction procedures	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01.
7	Practical	Module 1: rehearse the authorised setup	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Identify design factors and develop project specifications	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01.
8	Practical	Module 1: complete the teacher-approved project stage	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Outline risk-management principles and implement risk-reduction procedures	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
9	Practical	Module 1: check one quality point	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Identify design factors and develop project specifications	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01.
10	Practical	Module 1: record progress and the next safe step	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Outline risk-management principles and implement risk-reduction procedures	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01.
11	Site/theory	From drawing to marked metal: planning the work	Teach From drawing to marked metal: planning the work; students use the existing module check.	S4 — Use approved drawings, jigs or templates to manufacture components	Module check feedback, notes or teacher questioning. Outcomes: INT5-COM-01, INT5-DES-01, INT5-USE-01.
12	Project/folio	From drawing to marked metal: planning the work	Apply From drawing to marked metal: planning the work; students save the relevant folio or module response.	S4 — Select and use marking-out tools and processes accurately	Saved folio entry or scaffolded module response. Outcomes: INT5-COM-01, INT5-DES-01, INT5-USE-01.
13	Site/theory	Use the design process deliberately	Teach Use the design process deliberately; students use the existing module check.	S3 — Apply graphical communication during project development	Module check feedback, notes or teacher questioning. Outcomes: INT5-USE-01, INT5-INP-01, INT5-COM-01.
14	Project/folio	Marking-out evidence	Apply Marking-out evidence; students save the relevant folio or module response.	S4 — Use approved drawings, jigs or templates to manufacture components	Saved folio entry or scaffolded module response. Outcomes: INT5-COM-01, INT5-DES-01, INT5-USE-01.
15	Practical	Module 2: confirm the issued plan and datum	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Select and use marking-out tools and processes accurately	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-USE-01, INT5-INP-01.
16	Practical	Module 2: measure and mark from the approved reference	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Apply graphical communication during project development	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-USE-01, INT5-INP-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
17	Practical	Module 2: complete the pre-cut check	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Use approved drawings, jigs or templates to manufacture components	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-USE-01, INT5-INP-01.
18	Practical	Module 2: complete the teacher-approved project stage	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Select and use marking-out tools and processes accurately	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-USE-01, INT5-INP-01.
19	Practical	Module 2: check accuracy before the next irreversible step	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Apply graphical communication during project development	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-USE-01, INT5-INP-01.
20	Practical	Module 2: record progress and the next safe step	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Use approved drawings, jigs or templates to manufacture components	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-USE-01, INT5-INP-01.
21	Site/theory	Control the workpiece before the tool	Teach Control the workpiece before the tool; students use the existing module check.	S4 — Apply quality checks before, during and after production	Module check feedback, notes or teacher questioning. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-INP-01.
22	Project/folio	Control the workpiece before the tool	Apply Control the workpiece before the tool; students save the relevant folio or module response.	S4 — Demonstrate safe workshop practices with metal materials, tools and equipment	Saved folio entry or scaffolded module response. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-INP-01.
23	Site/theory	Cutting and edge preparation	Teach Cutting and edge preparation; students use the existing module check.	S4 — Use appropriate tools or machines for cutting, shaping and forming	Module check feedback, notes or teacher questioning. Outcomes: INT5-INP-01, INT5-PRO-01, INT5-SAF-01.
24	Project/folio	Forming with a planned sequence	Apply Forming with a planned sequence; students save the relevant folio or module response.	S4 — Apply quality checks before, during and after production	Saved folio entry or scaffolded module response. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-INP-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
25	Practical	Module 3: secure the work using the demonstrated setup	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Demonstrate safe workshop practices with metal materials, tools and equipment	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
26	Practical	Module 3: complete the teacher-approved cutting stage	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Use appropriate tools or machines for cutting, shaping and forming	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
27	Practical	Module 3: make edges safe using the approved process	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Apply quality checks before, during and after production	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
28	Practical	Module 3: complete the teacher-approved drilling or forming stage	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Demonstrate safe workshop practices with metal materials, tools and equipment	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
29	Practical	Module 3: check alignment and condition	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Use appropriate tools or machines for cutting, shaping and forming	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
30	Practical	Module 3: record progress and the next safe step	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Apply quality checks before, during and after production	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
31	Site/theory	Assembly quality: fit, alignment and finish	Teach Assembly quality: fit, alignment and finish; students use the existing module check.	S4 — Compare and use suitable joining and fabrication techniques	Module check feedback, notes or teacher questioning. Outcomes: INT5-SAF-01, INT5-ENV-01, INT5-USE-01.
32	Project/folio	Assembly quality: fit, alignment and finish	Apply Assembly quality: fit, alignment and finish; students save the relevant folio or module response.	S4 — Assemble components with suitable tools, equipment and processes	Saved folio entry or scaffolded module response. Outcomes: INT5-SAF-01, INT5-ENV-01, INT5-USE-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
33	Site/theory	Choose and complete the approved joint	Teach Choose and complete the approved joint; students use the existing module check.	S4 — Prepare surfaces and apply an appropriate protective finish	Module check feedback, notes or teacher questioning. Outcomes: INT5-USE-01, INT5-INP-01, INT5-PRO-01.
34	Project/folio	Prepare for corrosion protection	Apply Prepare for corrosion protection; students save the relevant folio or module response.	S4 — Compare and use suitable joining and fabrication techniques	Saved folio entry or scaffolded module response. Outcomes: INT5-PRO-01, INT5-SAF-01, INT5-ENV-01.
35	Practical	Module 4: dry check fit and alignment	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Assemble components with suitable tools, equipment and processes	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
36	Practical	Module 4: prepare contact surfaces using the approved process	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Prepare surfaces and apply an appropriate protective finish	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
37	Practical	Module 4: complete the teacher-approved joining stage	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Compare and use suitable joining and fabrication techniques	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
38	Practical	Module 4: prepare the surface safely	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Assemble components with suitable tools, equipment and processes	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
39	Practical	Module 4: apply the teacher-approved corrosion-protection process	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Prepare surfaces and apply an appropriate protective finish	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.
40	Practical	Module 4: record quality and the next safe step	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Compare and use suitable joining and fabrication techniques	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-SAF-01, INT5-USE-01, INT5-PRO-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
41	Site/theory	Evidence proves the process	Teach Evidence proves the process; students use the existing module check.	S3 — Create written texts that document, reflect on and evaluate production	Module check feedback, notes or teacher questioning. Outcomes: INT5-COM-01, INT5-DES-01, INT5-EVL-01.
42	Project/folio	Evidence proves the process	Apply Evidence proves the process; students save the relevant folio or module response.	S4 — Apply quality checks to finished metal components and products	Saved folio entry or scaffolded module response. Outcomes: INT5-COM-01, INT5-DES-01, INT5-EVL-01.
43	Site/theory	Organise the folio	Teach Organise the folio; students use the existing module check.	S3 — Evaluate design effectiveness for quality, function and aesthetics	Module check feedback, notes or teacher questioning. Outcomes: INT5-COM-01, INT5-DES-01, INT5-EVL-01.
44	Project/folio	Evaluate with evidence	Apply Evaluate with evidence; students save the relevant folio or module response.	S3 — Create written texts that document, reflect on and evaluate production	Saved folio entry or scaffolded module response. Outcomes: INT5-COM-01, INT5-DES-01, INT5-EVL-01.
45	Practical	Module 5: complete the teacher-approved functional check	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Apply quality checks to finished metal components and products	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-EVL-01.
46	Practical	Module 5: compare the result with the approved criteria	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Evaluate design effectiveness for quality, function and aesthetics	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-EVL-01.
47	Practical	Module 5: correct an authorised quality issue	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Create written texts that document, reflect on and evaluate production	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-EVL-01.
48	Practical	Module 5: finish process evidence	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S4 — Apply quality checks to finished metal components and products	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-EVL-01.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
49	Practical	Module 5: complete the evaluation	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Evaluate design effectiveness for quality, function and aesthetics	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-EVL-01.
50	Practical	Module 5: present the final folio and identify one improvement	Teacher demonstrates and authorises this local task. Apply current controls; stop if the plan, setup or conditions differ.	S3 — Create written texts that document, reflect on and evaluate production	Teacher observation plus an authentic process, quality or fieldwork record; local task and controls: Teacher to confirm. Outcomes: INT5-EVL-01.

Evidence, feedback and controls

Evidence and feedback: Use saved site checks, written responses, folio records and authentic practical observations. Give timely feedback and record follow-up in the delivery register.

Support and adjustments: Use visible takeaways, vocabulary, hints and scaffolded responses; adjust pace and local task demand without changing the authorised syllabus intent.

Practical controls: Use only current teacher-approved plans or tasks, local SOPs, risk controls, PPE and supervision. Stop and confirm any missing or changed condition before work continues.
